Strategy and analytics professional with 3.5 years at ZS Associates serving US clients, now completing a Global MBA at SP Jain. I turn research, data analysis and client interviews into recommendations that clients use, from hotel pricing for a USD 24M+ portfolio to pharmaceutical commercial analytics and a simulation suite for an AI data-centre expansion. Aerospace engineer by training.

Core Competencies

Workstream ownership | Data analysis | Research and stakeholder interviews | Structured problem solving | Strategy | Implementation and change management | Transformation | PowerPoint decks | Excel modelling | Written reports | Data-driven decision making | Coaching and mentoring

Selected Impact

- **85%** less manual reporting, 50+ dashboards
- **80%** engagement lift from SQL content optimisation
- **60%** NPS lift, USD 24M+ hotel portfolio
- Decision tool for about **150** revenue managers, sold as a product

Experience

ZS Associates, Pune, India *Mar 2022 to Sep 2025*

Global analytics and strategy consultancy. Four client-facing roles across two practices, serving US clients from India.

Decision Analytics Associate Consultant, Pharmaceutical practice *Jan 2025 to Sep 2025*

- Led the commercial analytics workstream for **10+ pharmaceutical brands** with an 8-member team, using data analysis, stakeholder interviews and brainstorming; delivered **100% on time** and presented to brand directors.
- Diagnosed from omnichannel reporting that a brand's content needed optimising, built the optimisation logic in SQL and designed the campaign; engagement rose **80%** and prescription volume **30%**. Pitched an AI creative engine to personalise content further.
- Co-led the design and ROI analysis of a test-and-control campaign for **3,000** prescribers unresponsive for two years, using regression to isolate the effect; engagement rose **75%**.
- Linked the client team and the dashboard build team: turned business requirements into data specifications and designs, set deliverables for each side, and saw the tool through to implementation and adoption.
- Designed the measurement framework and Power BI analytics layer behind a global display and MCRM orchestration tool, raising promotional effectiveness **20%**.
- Owned trigger optimisation for prescriber outreach: analysed Veeva data and integrated ZS's proprietary affinity score into the trigger algorithm, replacing random targeting with a data-based model.
- Took on the work of two colleagues who left and ran daily client calls; the client saw no disruption at the three-month review.

Decision Analytics Associate, Pharmaceutical practice *Jul 2024 to Dec 2024*

- Promoted to Associate Consultant within **six months**.
- Cut recurring manual reporting **85%** across **50+** Power BI dashboards by training and calibrating the firm's generative AI tools on industry terminology.
- Helped the team build the Customer Engagement Index, one measure of engagement across personal and non-personal channels, then led its refinement to replace fragmented reporting.

Decision Analytics Associate, Travel & Hospitality practice *Sep 2022 to Jun 2024*

Rose through revenue analyst, revenue manager and senior revenue manager designations with the client.

- Ran a **15-property** US hotel portfolio worth **USD 24M+** a year and lifted NPS **60%** in two years; built NPS dashboards across Expedia, Booking.com and Agoda that are still in use.
- Built a decision-support tool in Power BI and Power Apps used by about **150** revenue managers; ZS later sold it to the client as a commercial product.
- Owned daily pricing: set the year's highest room rate (**USD 999**) ahead of the 2024 solar eclipse and repriced overnight for a major concert.
- For a competing hotel client's Voice of RM programme, designed feedback surveys for all revenue managers, analysed the responses in **100+** Tableau visuals, and delivered recommendations and a roadmap as a repeatable process.
- Mentored **7** associates and **10+** mentees into client-ready revenue managers (2 promoted early) as the team grew from 30 to **150+** across India and Argentina.
- As senior revenue manager, worked with corporate regional managers of 22 to 25 years' experience and with property owners, and handled client escalations.
- Ranked **2nd** of 10+ analysts on case resolution and was 1 of 2 chosen to carry analyst and manager mandates at once.

Business Operations Associate (Intern), Travel & Hospitality practice *Mar 2022 to Aug 2022*

- Coached **150+** hotels through their transformation off a legacy revenue management system, running training directly with clients.

- Turned a property that was about to cancel into a **two-year premium contract** by finding the root cause and coaching its manager through the new system.
- Converted **20**+ properties with **USD 250M**+ in annual revenue to paid service tiers.

Consulting Engagements & Projects

- **a UAE AI infrastructure client (live client engagement, team of four):** researched the supply side and owned the financial model (Excel, Python) for a phased **1 GW** AI data-centre build, covering capex layering and power and energy reconciliation; designed the simulation suite (Monte Carlo with correlation, scenario analysis, paired runs, sensitivity ranking); the live model was reviewed by the Group Chief Accounting Officer.
- **Markstrat simulation (team, 1st of 11+ teams):** owned group strategy; led a conjoint-based price correction (+5.1 share points) and a targeting change that doubled one brand from **$30M to $62M** with no extra spend, lifting the Share Price Index **154%**.
- **Danube Home (customer experience audit, team):** co-led a diagnosis across **1,280**+ data points from a store visit, staff interviews and competitor benchmarks; presented to the CEO, who called the work practical.
- **Cooling the Cloud, ECOVERSE 2026 inter-university sustainability case (team lead, grand finalist):** led the team to the grand final against **10**+ teams and owned the technical solution and the water versus carbon data analysis.
- **SAP, conversational AI over ERP (industry engagement, team):** helped build the solution architecture (retrieval and orchestration layers), prioritised use cases, and co-wrote the client report with a phased roadmap and go/no-go criteria.
- **OSG FX hedging case (group):** led the risk assessment, diagnosis and board-level recommendation for a Japanese exporter's unhedged FX exposure.
- **TheraCure cold-chain network (group project):** led brainstorming on the supply chain process, designed the four-tier distribution network, governance model and cost-per-delivery logic, and owned the project end to end.
- **Sustainable fashion consumer study (team):** co-created the hypotheses, ran the PLS-SEM model on **247**+ responses, and led survey design, data cleaning and the paper draft.
- **Generative AI in APAC professional services (applied research):** ran **nine** expert interviews at 87% inter-coder reliability and wrote the resulting framework.

Education

SP Jain School of Global Management, Singapore & Dubai *Oct 2025 to Oct 2026*
Global MBA, CGPA 9.2/10
- 1 of 5 PLACOM Ambassadors from a 57-student cohort; **USD 4,000** merit scholarship on early admission.

R.V. College of Engineering, Bengaluru, India *Aug 2018 to Aug 2022*
Bachelor of Technology, Aerospace Engineering, CGPA 8.07/10
- KCET rank about 3,000, top 2% of the state entrance exam.

Skills

Consulting: client-ready PowerPoint decks and written reports, structured problem solving, data-driven decision making, market sizing, financial modelling (DCF, APV, WACC), stakeholder management, executive communication, change management
Analytics: SQL, test-and-control design, regression, conjoint analysis, PLS-SEM, survey design
AI and tech: generative AI tool calibration, RAG solution architecture, Python, Google Cloud generative AI (Gemini, Vertex AI)
Tools: Power BI, Tableau, Power Apps, Excel

Certifications & Programs

McKinsey Forward Program (Jul 2025) | BCG Strategy Consulting Job Simulation, Forage (Oct 2026) | Google Cloud Generative AI skill badges, 5 (Jan 2025) | Women@Dior and UNESCO mentorship programme (2026) | NPTEL: Composites, Aircraft Design (2020)

Leadership & Community

- PLACOM Ambassador, SP Jain: 1 of 5 students representing a 57-student cohort to recruiters.
- Team Vyoma aerospace club, RVCE: led public relations and sponsorship; raised **INR 1.2 lakh** at the 8th Mile fest, **1.7x** the target.
- Pro bono: menstrual health awareness wall paintings in Koramangala (2021), tutoring at Ananda Marga orphanage during COVID, and 20+ day outings for elderly residents in Pune.

Languages

English, Hindi, Kannada (fluent); Spanish (beginner)
